SAVE FOR YOUR WEEKLY ROUTINE

4 steps a cleaning run handles itself.

Swipe →

Your cleaning round runs on four steps. A system does all of them.

01

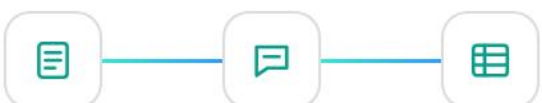

New enquiry, instant reply.

TODAY

Someone fills in a contact form at 20:00. No reply until next morning.

WITH A SYSTEM

A friendly message goes back in seconds, asks two quick questions.

02

The day-before reminder.

TODAY

Clients forget. A no-show means a wasted journey.

WITH A SYSTEM

A WhatsApp reminder goes out the evening before. One tap to confirm.

03

Access notes before you arrive.

TODAY

The gate code is in an old email. You are parked outside searching for it.

WITH A SYSTEM

The system sends the access notes to your phone thirty minutes before the job.

04

The review asked at the right moment.

TODAY

The client is happy but the moment passes. Nothing gets asked.

WITH A SYSTEM

A short thank you with one link goes out an hour after the job is marked done.

Same week, quieter week.

- New enquiry, instant reply.
- The day-before reminder.
- Access notes before you arrive.
- The review asked at the right moment.

The first visit, complaints and pricing stay with you.

Save this.

Which step takes the most of your time right now?
