FOR SMALL HOSPITALITY OWNERS

4 moments a guesthouse week runs itself.

Swipe →

Small hospitality, big repeat work. These 4 moments can run themselves.

01

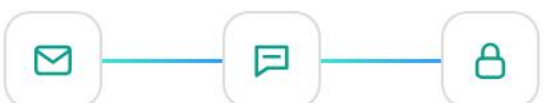

The late arrival question.

TODAY

A guest emails at 21:00 asking what time they can check in.

WITH A SYSTEM

An instant reply sends the check-in window and the door instructions.

02

The breakfast preference nobody collected.

TODAY

Guests arrive and dietary needs come up for the first time.

WITH A SYSTEM

A short form goes out two days before arrival. Answers saved to the booking.

03

The checkout review window.

TODAY

Guests leave happy. The moment to ask passes before you think of it.

WITH A SYSTEM

A thank you message with one review link goes out two hours after checkout.

04

The guest who stayed before.

TODAY

A past guest books the same dates next year somewhere else.

WITH A SYSTEM

A warm note goes out at eleven months, with a simple way to rebook.

More presence, less admin.

- The late arrival question.
- The breakfast preference nobody collected.
- The checkout review window.
- The guest who stayed before.

Complaints, special requests and the welcome stay with you.

Save this.
